

TOP 9 REASONS

**“I Wish I Would Have Had LASIK Sooner”
as told by our patients**

- 9 The Alarm Clock Factor** – Imagine waking up the next day and being able to see your alarm clock without fumbling for your glasses or contacts.
“Thank you all for changing my life! I NEVER thought I would be able to wake up and SEE!” ~ C. Flessner
- 8 Cost** – LASIK pays for itself within 5 years when you figure the cost for your yearly eye exam, glasses, and contacts throughout the years. Over time, you actually end up saving money by having the LASIK procedure!
“The cost is not much when you consider the cost of glasses, contacts, and exams over the course of a lifetime. I easily would have spent more over the years with these expenses, but now, I get the benefit of perfect vision and no glasses.” ~ L. Osborne
- 7 Active Lifestyle** – Enjoy activities glasses and contacts free... playing with your kids and pets, camping, hiking, swimming, running, golfing, and going to the gym!
“I went to Hawaii following my surgery and it was amazing to not worry about glasses or contacts! I could go swimming and see the fish! I didn't have to clean my lenses to look at the beautiful scenery! It was one of the best decisions of my life!” ~ T. Castelli
- 6 Less complicated life** – Think about how much time you spend inserting and removing your contacts every day and/or how often you are cleaning/adjusting your glasses.
“It really brings tears to my eyes at times when I just think about the last year and how things have changed and how far my eye sight has come. I can finally see!! I see so much better now, more than I ever did with my contacts and glasses.” ~ E. Coughlin
- 5 Freedom while traveling** – You probably have a section in your suitcase dedicated to contacts, solution, cases, and glasses. Free up space in your suitcase and pack more of the items you want to bring while traveling.
“It has been over 5-6 years since I wore contacts. I tell people if I had known how great it all turned out, I would have found a way to go in earlier. Totally worth every penny. Now the only glasses I wear are for the sun or reading.” ~ P. Stone
- 4 Instant Gratification** – Almost immediately after your LASIK procedure you can see the clock on the wall. Most patients gain 80–90% of their visual results by the next day...you're pretty much back to every day normal life 24 hours after your procedure!
“In less than 24 hours my vision went from 20/400 to 20/20. Amazing!” ~ T. Popejoy
- 3 Comfort** — Complaining of red, irritated, uncomfortable eyes with contact lens wear? Annoyed with the nose piece marks or headaches from glasses wear? LASIK is your answer to these problems!
“No more glasses (after 50 years)... I truly wish I would have done this long ago.” ~ A. Just
- 2 Safety** — Breaking/losing your glasses or contacts can be hazardous. Not to mention the risks associated with leaving your contacts in for extended periods of time. Why risk your health and safety?
“I started seeing my doctor for a severe eye infection that would not quit. Given my history, he suggested LASIK. I'd always been too scared to have it done but decided it was the best choice. LASIK IS AMAZING! I'm so glad I finally had the procedure done and can see perfectly for the first time in my life!” ~ A. Harrington
- 1 Self-Esteem** — It's liberating not to have to worry about contacts or glasses. You will no longer have to hide behind glasses!
“It has been 10 years now since my LASIK surgery. It was the best thing I have ever done. The freedom of no glasses or contacts is awesome.” ~ Anonymous
